

**NOVOSTABLE**  
CARE FOR HORSES

**HORSE BEHAVIOR ANALYSIS**  
through smart vision

UNUSUAL BEHAVIOR?  
AN ALERT!

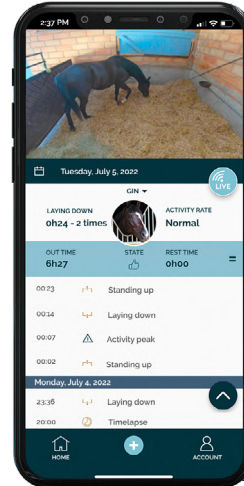

# 24/7 BEHAVIOR MONITORING & ANALYSIS

- Foaling management
- Health surveillance
- Behavior analysis : routine and habits
- Veterinary surveillance assistant

ALL IN 1 SOLUTION

POWERED BY LANA 

- Powerful Artificial Intelligence algorithms
- Intuitive mobile & desktop application
- Compatible with high performing cameras

# PROTECTION

Prediction of health issues and detection of unusual behaviour

## ALERTS REAL TIME

- Act ahead to **prevent major health** issues with **preventive care**.
- React **immediately** as soon as **unusual event or behaviour** is detected.

### COLIC: DO YOU KNOW?

**40,000** Deaths from colic each year.

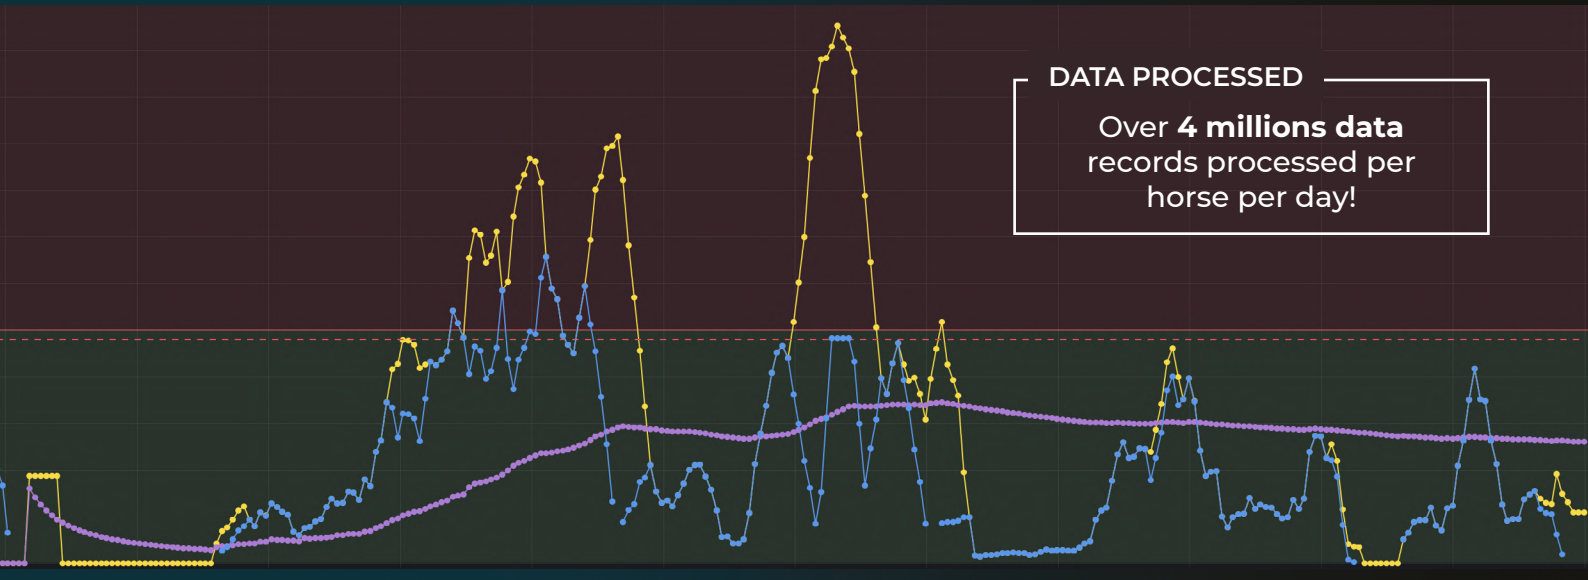

**60%** The **chances of survival** if treated < 10 hours **after the 1st** clinical signs.

**NOVOSTABLE** alerts you up to **24h** **BEFORE** the **first** clinical signs.

# OUR INTELLIGENT AND ACCURATE TECHNOLOGY

## LANA, OUR SELF-LEARNING ARTIFICIAL INTELLIGENCE

- **Tailor-made learning** of each environment and horse
- **Analyses** of behaviour in real time
- Continuous **review** and **validation** model performance
- **Detects** unusual behaviour
